Wingeel CFA Training Night :

Nina and Mark, kindly picked Kerrie up and headed off into the chilly dark night out Mount Gellibrand way rugged up in our extra layers - Nina chose her flannelette PJ's for extra leg warmth:) - what a great idea! All was in darkness when we arrived, but the night was soon lit up with a bit of moonlight to guide us (and Mark with his trusty torch), then lights, camera, action! Smoke, flashing lights, multiple trucks arriving, mobile light towers, confusion reigned for all as to what was the issue, delays in time. Exercise one, alas a fail....the poor victim didn't survive despite my valiant attempt at CPR:

(Second time round: ready, set go! Quick response, victim retrieved, positive debriefing, new member Peter(fire training officer) showing them the way. Live victim pulled from the flames and smoke, Yay! Happy days. Fire crew all safe, concerned neighbor in her dressing gown delighted her friend from next door was going to be ok.

Thank you:To Peter and Cathy for inviting us to your home and fire training area, it was a great challenge and interesting for us have a go at shooting. Much appreciated! from Kerrie, Nina and Mark (our driver, bag carrier and generally helpful chap)
